REPLICA 'PICKPOCKET' CALIFORNIA RED BLEND

CALIFORNIA • UNITED STATES • NORTH AMERICA

TECHNICAL DETAILS

The Estate

Replica's award-winning winemakers use their proprietary methodology to dive deep into the taste and aroma profiles such as oak, heat, tannins, floral and fruity flavors as well as spice and smoke. They use these findings to determine the best taste and aroma profiles for each of their Replica varietals based on consumer preference.

Wine Making

At our core, we believe that wine should taste the way that Mother Nature intended. Replica aims to bottle only the flavors found in nature through the natural expression of fruit – allowing us to produce only wine in its purest, most natural form. As a recipient of the Clean Label Project Purity Award, we pride ourselves on sharing a product free of contaminants.

Food Suggestions

Pairs well with beef, lamb, veal, and poultry dishes.

TASTING NOTES

Bright gold, with open scents of yellow stone fruit, red apple, melon, and hints of toasty French oak, this Chardonnay displays the classic balance and bright acidity of cool climate, barrel fermented Chardonnay. Unlike warmer climate Chardonnays, there is a richness and sense of vibrancy that allows for current enjoyment but will also add complexity and depth with a year's bottle age.

A red grape blend.

This wine contains allergens, sulfites.
