VINA REAL 'CRIANZA' RIOJA ALTATINTO

RIOJA ALTA • RIOJA • SPAIN • EUROPE

TECHNICAL DETAILS

The Estate

Rioja Alavesa grapes are at the very heart of this winery. The winery's name was inspired by the proximity of its vineyards to the old Camino Real. Clinging to this same patch of earth and blending into the Cerro de la Mesa hill is a monumental 30,000-square metre vat: this is the Viña Real building, an iconic design built in 2004 that masterfully blends the construction into the Riojan terrain.

Wine Making

De-stemmed grapes were transferred to stainless steel vats for the alcoholic fermentation at temperature control between 26-28. Following completion of the malolactic fermentation, the wine was transferred to French and American oak barrels where it aged for 13 to 14 months. During this period the wine is racked every 5-6 months to encourage ripening and proper organoleptic development.

Food Suggestions

Pairs well with beef, lamb, veal, and poultry dishes.

TASTING NOTES

Bright ruby-red. Cherry, redcurrant, tobacco and a hint of vanilla on the nose. Deep, sappy, open-knit red and dark berry flavors pick up floral pastille and smoke nuances with air. Finishes broad and smooth, with slow-mounting spiciness and gentle tannins. Quite elegant for the vintage and drinking nicely right now.

Tempranillo, Garnacha, Mazuelo, & Graciano grape blend.

This wine contains allergens, sulfites.
