

CRATER LAKE

CRATER LAKE 'RESERVE' VODKA

OREGON • USA • NORTH AMERICA

TASTING NOTES

We have always felt that our Crater Lake Vodka – crafted with pure Cascade Mountain water and filtered 10 times through charcoal and crushed lava rock – produced one of the smoothest vodkas in the world. That was before Batch #333. Mistakenly left to filter over 100 times, the result was an extraordinary vodka with a purity and smoothness that surprised even us. Today we celebrate this happy accident with our limited release Crater Lake Reserve Vodka, an exquisite vodka for the true aficionado, unmatched in purity and smoothness. Gluten free.
